PROFESSIONAL SUMMARY

Frontend / Full-stack Developer with experience building modern, scalable, and product-oriented web applications using technologies such as Next.js, TypeScript, and Tailwind CSS. I've worked on real estate platforms and digital products of medium and large scale, developing enterprise dashboards, authentication systems, complex user flows, and performance-optimized user experiences. I specialize in frontend architecture, performance optimization, responsive design, and user experience, collaborating closely with backend and product teams.

PROFESSIONAL EXPERIENCE

Full-stack Developer <i>IT Business Dominicana</i>	2025-01 - 2026-01
Developed scalable web applications using Next.js, TypeScript, and Tailwind CSS. Implemented user interfaces for a real estate platform, including internal dashboards, advanced filtering systems, and secure authentication flows. Integrated interactive maps using the Google Maps API. Optimized application performance, accessibility, and responsive design. Managed state and data fetching using Zustand and SWR. Implemented animations and micro-interactions with Framer Motion.	
Full-stack Developer <i>Spedis</i>	2024-05 - 2024-12
Designed and implemented a property booking platform and a corporate blog. Developed both frontend and backend features using Next.js, Node.js, and TypeScript. Integrated third-party services such as Stripe, PayPal, and Smoobu. Implemented and structured a headless CMS using Sanity, including schema modeling, GROQ queries, preview configuration, and content workflows. Focused on modular architecture, performance optimization, and user experience.	
Web Developer <i>Caribe Media</i>	2019-09 - Present
Developed and maintained web platforms for multiple business sectors. Optimized SEO and improved page load performance using frontend best practices. Built websites using HTML, CSS, SCSS, JavaScript, Bootstrap, and WordPress. Worked with visual builders such as Elementor while maintaining performance and code quality standards.	

EDUCATION

Professional computer technician <i>Institute Polytechnic Lic. Victor Estrella Liz</i>	2015-09 - 2017-05
ReactJs / NextJs <i>UDEMY</i>	2022-04 - 2022-04
Render and Composition of React <i>Platzi</i>	2024-11 - 2024-11
Desarrollo Frontend con ReactJs In React Js <i>Platzi</i>	2026-01 - 2026-04
Typescript In Typescript <i>Platzi</i>	2026-02 - 2026-03
NextJs Avanzado In NextJs <i>Platzi</i>	2025-11 - 2026-03
